IEEE/ACM Transactions on Computational Biology and Bioinformatics
Seeks New Editor-in-Chief for 2017-2018 Term

CALL FOR APPLICATIONS FOR EDITOR-IN-CHIEF
The IEEE Computer Society, IEEE Engineering in Medicine and Biology Society, and Association for Computing Machinery seek applicants for the position of editor in chief of the IEEE Transactions on Computational Biology and Bioinformatics, serving a two-year term starting 1 January 2017, renewable once.

Prospective candidates are asked to provide (as PDF files) by 1 April 2016 a complete curriculum vitae, a brief plan for the publication’s future, and a letter of support from their institution or employer. For more information on the search process and to submit application materials, please contact: Kathleen Henry, khenry@computer.org.

Additional information about TCBB is available at www.computer.org/tcbb.

QUALIFICATIONS AND REQUIREMENTS
Candidates for any editor-in-chief position should possess significant editorial experience and a good understanding of industry, academic, and government aspects of the specific publication’s field. In addition, candidates must demonstrate the managerial skills necessary to process manuscripts through the editorial cycle in a timely fashion. An editor in chief must be able to attract respected experts to his or her Editorial Board. Major responsibilities include:

• actively soliciting high-quality manuscripts from potential authors and, with support from publication staff, helping these authors get their manuscripts published;
• identifying and appointing editorial board members with the concurrence of the Steering Committee;
• selecting competent manuscript reviewers with the help of Editorial Board members and managing timely reviews of manuscripts;
• directing Editorial Board members to seek special issue proposals and manuscripts in specific areas;
• providing a clear, broad focus through promotion of personal vision and guidance where appropriate; and
• resolving conflicts or problems as necessary.

Applicants should possess recognized expertise in the computer science and engineering community, and must have clear employer support.
