Message from the CADSA 2015 Workshop Organizers

Welcome to the third International Workshop on Cloud and Distributed System Applications (CADSA), which is held in conjunction with the 10th Conference on P2P, Parallel, Grid, Cloud and Internet Computing (3PGCIC 2015) at the Pedagogical University of Krakow, Poland, from November 4 to November 6, 2015.

International Workshop on Cloud and Distributed System Applications brings together scientists, engineers and students for sharing experiences, ideas, and research results about Domain Specific Applications relying on Cloud Computing or Distributed Systems.

This workshop provides an international forum for researchers and participants to share and exchange their experiences, discuss challenges and present original ideas in all aspects related to the Cloud and Distributed Systems applications design and development.

We have encouraged innovative contributions about Cloud and Distributed Computing, like:
- Distributed Computing Applications
- Cloud Computing Applications
- Collaborative Platforms
- Topologies for distributed Computing
- Semantic Technologies for Cloud
- Modeling and Simulation of Cloud Computing
- Modeling and Simulation of Distributed System
- Distributed Knowledge Management
- Distributed Computing for Smart Cities
- Distributed Computing for E-Health
- Quality Evaluation of Distributed Services

For CADSA 2015, we have accepted 15 papers, which will be presented in three sessions.

Many people contributed to the success of CADSA 2015.

First, I would like to thank the Organizing Committee of 3PGCIC 2015 International Conference for giving us the opportunity to organize the workshop. Second, I would like to thank our Program Committee Members and, of course, I would like to thank all the Authors of the Workshop for submitting their research works and for their participation. Finally, I would like to thank the Local Arrangement Chairs for the 3PGCIC 2015 conference.

I hope you will enjoy CADSA workshop and 3PGCIC International Conference, find this a productive opportunity for sharing experiences, ideas, and research results with many researchers, and have a great time in Krakow, Poland.

Flora Amato, University of Naples "Federico II", Italy

CADSA 2015 Workshop Chair
