Message from the Program Chair

ACCT 2012, the Second International Conference on Advanced Computing & Communication Technologies, will continue to feature comprehensive coverage of traditional and emerging disciplines of Computing, Communication & Control Systems. Researchers and educators will have a unique opportunity to learn about recent advances, get updated on cutting edge applications and techniques, and network with leading researchers.

ACCT 2012 offers a diverse, yet comprehensive technical program covering all areas of Computer Science and Communication Systems. Accepted papers are grouped according to methodology or application, depending on the focus chosen by the author, to the extent that is practical, in various sessions.

Our goal is to have a well-balanced technical program that covers all areas that covers broad theme of the conference; therefore we rely on your contributed presentations to achieve that goal. On behalf of the organizing committee, I thank you to share your research discoveries at ACCT 2012, and to join us and your colleagues at the Rohtak, from 7-8 January 2012

Sincerely,

Harish Mittal
ACCT 2012 Program Committee Chairman
