Dear Colleagues,

It is a great pleasure to welcome you to the 2nd International Conference on Advanced Computer Science Applications and Technologies ACSAT2013, organized by Design for Scientific Renaissance (DSR). This year the conference was held at the Four points Hotel in the lovely city Kutching in Malaysia.

The organizing committee of the conference received around 200 Research papers from all over the world (26 countries); the acceptance rate was around 50%. The submitted papers covered a wide range of important topics in Computer Science Applications and Technologies.

The refereed articles covered mostly all tracks of the conference. All submitted papers were refereed by anonymous referees in the field of specialization. In many cases, the research papers were improved significantly based on the recommendation of the referees, to whom we would like to thank for all their efforts.

It is my great pleasure and honor to serve this conference as General Chairman. I would like to thank all authors that had the confidence in the quality of our conference and the high standards it pertains, and submitted their valuable work to be presented and published.

I would like to express my gratitude to every member of the International Steering Committee for many suggestions, and all members of the Editorial Board for their scientific and technical help.

I especially thank the Organizing Committee, Technical Committee, cooperating societies, and institutes for their devotion to organizing this conference. Looking forward to meeting you at ACSAT 2014 in Jordan.

Thank you

Dr. Imad Fakhri Al Shaikhli
Conference General Chair
