# Table of Contents

## Preface

## Committee Lists

## Program Committee

## Keynote Speakers

## Regular Papers

The Influence of Students' Knowledge on Security towards Their Behavior with Security Risks within the Context of Saudi Arabia

*Alia A. Aldossary and Akram M. Zeki*

Modified Full Bayesian Networks Classifiers for Medical Diagnosis

*Ahmed T. Sadiq AlObaidi and Noor Thamer Mahmood*

Text Summarization for Social Network Conversation

Data Hiding within Color Images Based on MCT with X-OR Operations

*Wafaa Mustafa Abduallah, Abdul Monem S. Rahma, and Al-Sakib Khan Pathan*

Software Maintenance Expert Base Decision Support (SoXDeS) Framework

*Rahma A. Kamaludeen, Yu-N Cheah, and Shahida Sulaiman*

An Educational Software Design Critiquing Tool to Support Software Design Course

*Norhayati Mohd Ali, Novia Admodisastro, and Soran Mahmood Abdulkareem*

Mobile Plant Tagging System for Urban Forest Eco-Tourism Using QR Code

*Iskandar Izhak, Fatimah Sidi, Lilly Suriani Affendey, Nor Fazlida Mohd Sani, Amir Syamimi Hamzah, and Paiman Bawon*

Determining an Ideal MSA Method for Constructing Phylogenetic Tree on DNA Dataset

*Najihah Ibrahim and Nur’Aini Abdul Rashid*
Formulating Situation Awareness for Multi-agent Systems .........................................................................................48
   Salama A. Mostafa, Mohd Sharifuddin Ahmad, Azhana Ahmad, and Muthukaruppan Annamalai

IDS Using Mitigation Rules Approach to Mitigate ICMP Attacks ..............................................................................54
   Adi Dewiyana Abdul Hadi, Farok Hj. Azmat, and Fakariah Hani Mohd Ali

DronePilot.NET Development: AR.Drone SDK Supporting Native and Managed Code ...........................................60
   Takuya Saito and Kenichi Mase

Risk Assessment for Cisco PIX-525 Firewall: Fuzzy Logic Approach ...........................................................................65
   Noor Ashitah Abu Othman, Fakariah Hani Mohd Ali, and Nurulhidayah Abdul Latif

Simulation of Tool Life for Ceramic with Negative Rake Angle Using Neural Network .................................................70
   Muataz Hazza F. Al Hazza, Erry Y. T. Adesta, and Muhammed H. Hasan

Simulating the Electrical and Thermal Conductivity in EDM Die Sinking of Cu-TaC
Compact Electrodes Using Neural Network ...........................................................................................................74
   Muataz Hazza F. Al Hazza, Mohamed Baba Ndaliman, Mohammad Yeakub Ali, and Ahsan Ali Khan

Evaluating Digital Library Effectiveness: A Survey at University of Tehran ..............................................................80
   Ismail Samadi and Mohamad Noorman Masrek

A Comparative Study of Alert Correlations for Intrusion Detection ...........................................................................85
   Leau Yu Beng, Sureswaran Ramadass, Selvakumar Manickam, and Tan Soo Fun

Intelligent Traffic Light Based on Multi-agent System ..................................................................................................89
   Arwa Ibrahim Ahmed and Ashraf Gasm El.seed

Flooding Based DoS Attack Feature Selection Using Remove Correlated Attributes
Algorithm .....................................................................................................................................................................93
   Abdulaziz Hadi saleh Aborujilah, Sharulinazi Musa, AAmir Shahzad, Mohd Nazri, and Mohd Nazri

Knowledge Sharing System Model for Higher Learning Institutions: Case Study .......................................................97
   Saad Abdullah and Haryani Haron

Mobility Based Surveillance Model to Facilitate Security of Individuals—Properties —— Properties 103
   Shihab A. Hameed, Mohammad Sh. Ahmed, and NorAizat b. Rahimi

Discovering Teachers’ Attitudes toward Use of Information and Communication
Technology (ICT) in Preschool ..................................................................................................................................108
   Nor Diana Ahmad, Wan Dilah Wan Adnan, Jamaliah Taslim, and Nursabeeha Ab Manap

Speaker Identification Using Selected Features from DWT .......................................................................................114
   Feras E. AbuAladas and Venus W. Samawi

Discovering Purchasing Pattern of Sport Items Using Market Basket Analysis .........................................................120
   Wan Faezah Abbas, Nor Diana Ahmad, and Nurlina Binti Zaini

Critical Success Factors for Invigilation Schedule ..................................................................................................126
   Nor Shahida Mohamad Yusop, Juliana Hamka Kamaroddin, and Wan Faezah Abbas
Noise Robust Speech Recognition Based on Noise-Adapted HMMs Using Speech Feature Compensation .................................................................132

Yong-Joo Chung

Empirical Research into the Webquest Mode of English Writing Teaching in Institutes of Higher Vocational Education in China .........................................................136

Zhang Mingyong

Integrating Neuro-genetic Connection Weights Strategy for Spoken Malay Speech Recognition Model .................................................................140

Noraini Seman

Computer and Information Security Ethics—Models .................................................................................................................................145

Hamed Taherdoost, Shamsul Sahibuddin, Meysam Namayandeh, and Neda Jalaliyoon

‘ICTization Framework’: A Conceptual Development Model through ICT Modernization in Bangladesh .................................................................150

Arif Mahmud and Abdus Sattar

Exploring the Challenges of MP3 Audio Steganography .........................................................................................................................156

Mohammed Salem Atoum, Subariah Ibrahim, Ghazali Sulong, Akram Zeki, and Adamu Abubakar

Investigating Digital Watermark Dynamics on Carrier File by Feed-Forward Neural Network .............................................................................................................162

Akram M. Zeki, Adamu Abubakar, and Haruna Chiroma

Hybrid Multi-cloud Data Security (HMCDS) Model and Data Classification .............................................................................................................166

Munwar Ali Zardari, Low Tang Jung, and Muhammed Nording B. Zakaria

A Low Power 3.1-10.6 GHz Ultra-wideband CMOS Power Amplifier with Resistive Shunt Feedback Technique ..............................................................................172

R. Sapawi, S.K. Sahari, and Kuryati Kipli

Mobile Cloud Computing Testing Review .................................................................................................................................176

Ahmad Salah Al-Ahmad, Syed Ahmad Aljunid, and Anis Shobirin Abdullah Sani

An Empirical Study of the Factors Influencing Information Disclosure Behaviour in Social Networking Sites .................................................................................................181

Norsaremah Salleh, Ramlah Hussein, Norshidah Mohamed, and Umar Aditiawarman

Trade-off between Robustness and Quality Based on Dual Intermediate Significant Bits .............................................................................................................186

Ghassan Nashat Mohammed, Azman Yasin, and Akram M. Zeki

Similarities and Dissimilarities between Character Frequencies of Written Text of Melayu, English, and Indonesian Languages .................................................................................................192

Asadullah Shah, Aznan Zuhid Saidin, Imad Fakhri Taha, Akram M. Zeki, and Zeeshan Bhatti

</table>
A Performance Approach: SCADA System Implementation within Cloud Computing Environment ................................................................. 274
   AAmir Shahzad, Shahrulniza Musa, Abdulaziz Aborujilah, and Muhammad Irfan

Practical Considerations on Quantum Key Distribution (QKD) ................................................................. 278
   Wajdi Al-Khateeb, Khalid Al-Khateeb, Nur Elyana Ahmad, and Siti Norussaadah Mohd Salleh

A Security-Based Survey and Classification of Cloud Architectures, State of Art and Future Directions ............................................................................................................. 284
   Ahmad Waqas, Zulkefli Muhammed Yusof, and Asadullah Shah

Secure Search Over Encrypted Data in Cloud Computing ............................................................................. 290
   Majid Bakhtiari, Majid Nateghizad, and Anazida Zainal

Improving the Security of LBlock Lightweight Algorithm Using Bit Permutation ........................................ 296
   Sufyan Salim Mahmood AlDabbagh and Imad Fakhri Taha Al Shaikhli

Analysis of Three Trusted Friends’ Vulnerability in Facebook ........................................................................ 300
   Ahmed Kadhim Noor and Mohammad Abdur Razzaque

Mitigating IPv6 Security Vulnerabilities ........................................................................................................ 304
   Harith A. Dawood and Khalid F. Jassim

SMS Encryption Using 3D-AES Block Cipher on Android Message Application ........................................... 310
   Suriyani Ariffi, Ramlan Mahmod, Ratini Rahmat, and Nuzul Annisa Idris

Secure Cryptography Testbed Implementation for SCADA Protocols Security ........................................ 315
   AAmir Shahzad, Shahrulniza Musa, Abdulaziz Aborujilah, and Muhammad Irfan

Workshop on Computer Assisted Surgery and Diagnostic

Coronary Artery Segmentation in Angiograms with Pattern Recognition Techniques—A Survey ................................................................. 321
   Rohollah Moosavi Tayebi, Puteri Suhaita Binti Sulaiman, Rahmita Wirza, Mohd Zamrin Dimon, Suhaini Kadiman, Lilly Nurliyana Binti Abdullah, and Samaneh Mazaheri

Echocardiography Image Segmentation: A Survey ......................................................................................... 327
   Samaneh Mazaheri, Puteri Suhaita Binti Sulaiman, Rahmita Wirza, Fatimah Khalid, Suhaini Kadiman, Mohd Zamrin Dimon, and Rohollah Moosavi Tayebi

An Empirical Comparison of Classification Algorithms for Diagnosis of Depression from Brain SMRI Scans ......................................................................................... 333
   Kuryati Kipli, Abbas Z. Kouzani, and Yong Xiang

Querying EL Ontology Stream with C-SPARQL ......................................................................................... 337
   Akanimo Samuel Okure and Jeff Z. Pan

DNA Computing to Solve Vertex Coloring Problem ................................................................................... 341
   Rofilde Hasudungan and Rohani Abu Bakar
Sensitivity Analysis in Large-Scale of Metabolic Network of E. Coli
Mohammed Adam Kunna, Tuty Asmawaty Abdul Kadir, and Aqeel S. Jaber

Measuring Customer Perceptions Index Using CMAC Speech Emotion Mapping
Norhaslinda Kamaruddin and Abdul Waab

Artifact Processing of Epileptic EEG Signals: An Overview of Different Types of Artifacts
Abdul Qayoom Hamal and Abdul Wahab bin Abdul Rehman

Early Identification of Dyslexic Preschoolers Based on Neurophysiological Signals
Izzah Karim, Abdul Qayoom, Abdul Wahab, and Norhaslinda Kamaruddin

Extracting Features Using Computational Cerebellar Model for Emotion Classification
Hamwira Yaacob, Wahab Abdul, and Norhaslinda Kamaruddin

Image Segmentation Using an Adaptive Clustering Technique for the Detection of Acute Leukemia Blood Cells Images
Farah H.A. Jabar, Waidah Ismail, Rosalina Abdul Salam, and Rosaline Hassan

Data Mining Techniques for Optimization of Liver Disease Classification
Sa’diyah Noor Novita Alfisahrin and Teddy Mantoro

**Workshop on Integration of Mobile and Embedded Technology into Learning Systems**

M-Umrah: An Android-Based Application to Help Pilgrims in Performing Umrah
Hasimah Hj Mohamed, Muhammad Rafie Hj Mohd Arshad, Nuraini Abdul Rashid, Zurinahni Zainol, Wahidah Husain, Omar Abd Majid, Munirah Ghazali, Md Yusoff Abdul Rahim, and Abdul Rhaffor Hj Mahmod

Older People and the Use of Mobile Phones: An Interview Study
Azaliza Zainal, Fariza Hanis Abdul Razak, and Nahdatul Akma Ahmad

Teaching Older People Using Web Technology: A Case Study
Nahdatul Akma Ahmad, Fariza Hanis Abdul Razak, Azaliza Zainal, Saliyah Kahar, and Wan Adilah Wan Adnan

Antecedents and Impacts of Mobile Banking Transactions: A Case of Malaysian Consumers
Mohamad Noorman Masrek and Mohd Hudzari Razali

Empirical Analysis of Android Apps Permissions
Normi Sham Awang Abu Bakar and Iqram Mahmud

‘Dyslexia Baca’ Mobile App—The Learning Ecosystem for Dyslexic Children
Salwani Mohd Daud and Hafiza Abas

A Study on Application Layer Classification for Firewalls Using Regular Expression Matching
Jonathan A.P. Marpaung, M. Agni Catur Bhakti, and Setiadi Yazid
Optical Character Recognition (OCR) Performance in Server-Based Mobile Environment ................................................................. 423
  *Teddy Mantoro, Abdul Muis Sobri, and Wendi Usino*

Secured Communication between Mobile Devices and Smart Home Appliances ................................................................. 429
  *Teddy Mantoro, Mohd. Aima Mohd. Adnan, and Media A. Ayu*

Qualitative Findings on the Use of Mobile Phones by Malaysian Older People ................................................................. 435
  *Sofianiza Abd Malik and Muna Azuddin*

Load-Balancing Technique in Clustered Mobile Ad-hoc Networks .................................................................................. 440
  *Labdah M.H.M. ALGhafran and Zulkefli Bin Muhammed Yusof*

Fuzzy Logic Based Compensated Wi-Fi Signal Strength for Indoor Positioning .......................................................... 444
  *Akeem Olowolayemo, Abu Osman Md Tap, and Teddy Mantoro*

An Automated Signature Generation Method for Zero-Day Polymorphic Worms Based on Multilayer Perceptron Model ................................................................. 450
  *Mohsen M.Z.E. Mohammed, H. Anthony Chan, Neco Ventura, and Al-Sakib Khan Pathan*

A Study on Packet Capture Mechanisms in Real Time Network Traffic ............................................................................. 456
  *Syazwina Binti Alias, Selvakumar Manickam, and Mohammed M. Kadhum*

Framework for Logistics Coordination and Distribution Mobile Application in Disaster Management ................................................................. 461
  *Mira Kartiwi and Teddy Surya Gunawan*

Throughput Comparison of AOMDV and OLSR Ad Hoc Routing Protocols Using VBR and CBR Traffic Models ........................................................................ 466
  *Ali M. Al-Sharafi and Bander A. Abrimi*

The Challenges of Cloud Technology Adoption in E-government .................................................................................. 470
  *Maslina Abdul Aziz, Jemal Abawajy, and Morshed Chowdhury*

Validating Instrument Quality for Measuring Students’ Acceptance of an Online Discussion Site (ODS) ................................................................. 475
  *Prasanna Ramakrisnan, Azizah Jaafar, Noor Faezah Mohd Yatim, and Mohd Noor Mamat*

**Workshop on Management Information System Applications in New World Economy**

The Drivers of ITIL Adoption in UNITEN ............................................................................................................................. 479
  *Juraini Mohamed Saleh and Mahmoud Khalid Almsafir*

Evaluating Game-Based Learning (GBL) Effectiveness for Higher Education (HE) ............................................................. 485
  *Mazeyanti Mohd Ariffin and Suziah Sulaiman*

Near Field Communication Mobiquitous Learning System ............................................................................................... 490
  *Soon Nyean Cheong, Ian Chai, and Rajasvaran Logeswaran*

Classification of Web Based Service User Types ............................................................................................................. 495
  *Hamed Taherdoost, Shamsul Sahibuddin, Neda Jalaliyoon, and Javad Hosseinkhani*
Information Mining on the Web: E-business Application ................................................................. 500
    Hamed Taherdoost and Javad Hosseinkhani

E-business Continuity and Disaster Recovery Plan Case Study Kuwait: Kuwait Government Entities (GEs) ................................................................. 504
    Khaled Abdulkareem Al-Enezi, Imad Fakhri Al-shaikhli, Abdul Rahman Al-kandari, and Hessa Mutlaq Al-Mutairi

The Impact of IT Infrastructure Flexibility on Strategic Utilization on Information Systems: A Conceptual Framework ................................................................. 510
    Norizan Anwar and Mohamad Noorman Masrek

Muslim Consumers’ Perceived Behavior in E-commerce Environment ........................................... 515
    Mohd Adam Suhaimi, Mohamed Jalaldeen Mohamed Razi, Husnayati Hussin, Muhd Rosydi Muhammad, and Marjan Muhammad

Legibility of Web Page on Full High Definition Display ............................................................... 521
    Ahmad Affendi Hashim, Mazlina Abdul Majid, and Balsam A. Mustafa

Evaluation of Triple Indices in Retrieving Web Documents ............................................................ 525
    Nurul Syeilla Syazhween Zulkefli, Nurazzah Abd Rahman, Zainab Abu Bakar, Sharifalillah Nordin, Tengku Mohd Tengku Sembok, and Noor Hasimah Ibrahim Teo

Cognitive Knowledge Representation for Examination Questions Specification Analysis .............. 530
    Farhana Yaakob, Noor Hasimah Ibrahim Teo, and Nur Atiqah Sia Abdullah

Assessment of Electronic Service Applications’ Practice: Domains Perspective .......................... 534
    Hamed Taherdoost, Shamsul Sahibuddin, and Neda Jalaliyoon

Impact of Service Quality on Internet Banking Customer Satisfaction: A Review of Literature .......... 538
    Golchia Jenabi and Alireza Ghanadan

The Important Dimensions for Assessing Organizations’ Readiness toward Business Intelligence Systems from the Perspective of Malaysian Organization ......................... 544
    Ahmed H. Anjariny and Akrak M. Zeki

Author Index .................................................................................................................................. 549
