Message from IEEE AINA 2016 Steering Committee Co-Chairs

Welcome to the 30-th IEEE International Conference on Advanced Information Networking and Applications (IEEE AINA 2016). It is our great pleasure and honor to held AINA 2016 at Le Regent Congress Centre, Crans-Montana, Switzerland from March 23 to March 25, 2016. On behalf of the AINA Steering Committee and IEEE AINA 2016 Organizing Committee, we would like to express to all participants our cordial welcome and high respect.

AINA is an International Forum, where scientists and researchers from academia and industry working in various scientific and technical areas of networking and distributed computing systems can demonstrate new ideas and solutions in distributed computing systems.

AINA was born in Asia, but it is now an International Conference with high quality thanks to the great help and cooperation of many international friendly volunteers. AINA is a very open society and is always welcoming international volunteers from any country and any area in the world. AINA is an International Conference sponsored by TCDP of IEEE Computer Society.

In conjunction with IEEE AINA 2016 main conference, we have also 20 International Workshops. Every year after the conference, we usually publish special issues in International Journals. The authors who attend IEEE AINA 2016 and present their papers in the main conference and workshops can submit a revised version of the paper to one of the special issues.

An international conference can be organized by support and great voluntary efforts of many people and organizations and our main responsibility is to coordinate various tasks carried out with other willing and talented volunteers.

We would like to thank IEEE AINA 2016 General Co-Chairs: Antonio Jara, HES-SO, Switzerland, Hui-Huang Hsu, Tamkang University, Taiwan and Markus Aleksy, ABB AG, Germany for their great efforts to make a very successful organization of IEEE AINA 2016.

We would like to express our special thanks to Dominique Genoud, HES-SO, Switzerland, Tomoya Enokido, Rissho University, Japan and Kin Fun Li, University of Victoria, Canada as PC Co-Chairs of IEEE AINA 2016 for making excellent technical program.
