Welcome to the AINA 2008 workshops to be held in conjunction with the IEEE 22nd International Conference on Advanced Information Networking and Applications, in GinoWan, Okinawa, Japan. The goal of AINA workshops is to provide a forum for international researchers and practitioners to exchange and share their new ideas, research results and ongoing work on leading-edge topics in the different fields of information networks and their applications. The response from the community to the AINA 2008 workshops call was very remarkable and a total of 16 symposiums and workshops were accepted. They cover a wide range of topics with a good mix of emerging and well-established ones and are chaired by reputed and highly motivated researchers in the corresponding areas.

The following provides a list of all symposiums and workshops to be held with AINA 2008:

1. Workshop on Heterogeneous Wireless Networks (HWISE08)
2. Symposium on Web and Mobile Information Services (WAMIS08)
3. Workshop on Performance Analysis and Enhancement of Wireless Networks (PAEWN08)
5. Workshop on Service Oriented Architectures in Converging Networked Environments (SOCNE08)
6. Security in RFID and its Industrial Applications
7. The 2008 IEEE International Symposium on Mining the Asian Web (MAW-08)
8. Workshop on Applications of Ad hoc and Sensor Networks (AASNET)
9. The First IEEE International Workshop on Opportunistic Networking (WON-08)
11. Workshop on Bioinformatics and Life Science Modeling and Computing (BLSMC08)
12. The 3rd International Symposium on Ubiquitous Application & Security Service (UASS-08)
15. International Workshop on Data Management for Wireless and Pervasive Communications (DMWPC-2008)

We would like to thank the community for their great response to AINA 2008 workshops. The excellent technical program of the workshops was the result of a professional work from workshop chairs, workshop program committees, reviewers, and authors. Almost a 322 papers have been selected for publication in AINA 2008 workshops.

We are grateful to AINA organizers for their continuous support and cooperation. We would like to express special thanks to Prof. Tomoya Enokido for his timely unlimited support and organization.

We wish all of you entertaining and rewarding experience in all workshops and AINA conference.
