2010 International Conference on Advances in Recent Technologies in Communication and Computing

ARTCom 2010

Table of Contents

Message from the General Chair ........................................................................................................... xiii
ARTCom 2010 Committees .........................................................................................................................xiv
About ARTCom 2010 .................................................................................................................................... xviii

Full Papers

A New Nonlinear Filtering Technique for Image Denoising ................................................................. 1
R. Pushpavalli, E. Srinivasan, and S. Himavathi

Asymmetrical Positive Feedback Adiabatic Logic for Low Power and Higher Frequency ........................................................ ............................................................. 5
V.S. Kanchana Bhaaskaran

A Novel Shape Based Hierarchical Retrieval System for 2D Images ...................................................... 10
T. Gokaramaiah, P. Viswanath, and B. Eswara Reddy

Power Quality Improvement in Wind Power Using Sliding Mode Control Technique ........................................................ ................................................................. 15
M. Mohammadha Hussaini and R. Anita

A Compact Second Generation Current Conveyor(CCII) ........................................................................ 20
Amisha P. Naik and Niranjan M. Devashrayee

Pseudo Concurrent Quad-Band LNA Operating in 900 MHz/1.8 GHz and 900 MHz/2.4 GHz Bands for Multi-standard Wireless Receiver .............................................................................. 25
Sambit Datta, Kunal Datta, Ashudeb Dutta, and Tarun Kanti Bhattacharyya

Path-Based Heuristic Task Scheduling Algorithm for Heterogeneous Distributed Computing Systems ........................................................ ................................................................. 30
R. Eswari and S. Nickolas
Image Compression Using PCA and Improved Technique with MLP Neural Network

Vilas Gaidhane, Vijander Singh, and Mahendra Kumar

A Novel Proposal for Detection of Avian Influenza and Managing Poultry in a Cost Efficient Way Implementing RFID

Sudip Dogra, Soumya Chatterjee, Ritwik Ray, Saustav Ghosh, Debharshi Bhattacharya, and Subir Kumar Sarkar

A Static Improvement of Predictive Control for Single Phase Voltage Fed Power Factor Correction Converters

D. Lenine, Ch. Sai Babu, and J. Surya Kumari

Evolutionary Computing Based Multilevel H-bridge Cascaded Inverter with Photovoltaic System

J. Surya Kumari, Ch. Sai Babu, and D. Lenine

Design of Fractional Order Differentiators and Integrators Using Indirect Discretization Approach

Richa Yadav and Maneesha Gupta

MPG-TAR: Mobile Process Groups Based Trust Aware Routing Protocol for MANETs

V. Aakanksha and Pumam Bedi

FPGA Implementation of M-PSK Modulators for Satellite Communication

Satish Sharma, Sunil Kulkarn, Vijaykumar Pujari, Vanitha M., and P. Lakshminarsimhan

Face Recognition by Regularized-LDA Using PRM

Lingraj Dora and N.P. Rath

A Novel Wavelet Based Super Resolution Reconstruction of Low Resolution Images Using Adaptive Interpolation

Liyaakathunisa and C.N. Ravi Kumar

Short Papers

Implementation of Hybrid Ad-Hoc Routing Protocol

S. Swapna Kumar, M. Nanda Kumar, and Sheeba V.S.

Hardware Implementation of a Biometric Fingerprint Identification System with Embedded Matlab

Jithin P. Thomas, K.R.S.N. Kumar, Vamsidhar Addanki, Anu Gupta, and Nitin Chaturvedi

Effects of Co-channel Interference in WLAN and Cognitive Radio Based Approach to Minimize It

Prabhat Kumar Tiwary, Niwas Maskey, Suman Khakurel, and Gitanjali Sachdeva

Optimal Clusters and Architectures in Complex Networks

S. Kadam, D. Kolluru, A. Vaidya, and A. Viswanadhuni

Image Encryption Using Discrete Fractional Transforms

Neeru Jindal and Kulbir Singh
Dynamic Response of Wind Power Generators Using Statcom ............................................................. 168
  M. Mohammadh Hussaini and R. Anita

Design of QoS Routing Framework Based on OLSR Protocol .............................................................. 171
  Suman Banik, Bibhash Roy, Biswajit Saha, and Nabendu Chaki

An Automatic Feature Based Registration Algorithm for Medical Images ......................................... 174
  A.N.K. and Sarath K.S.

Testing of Logic Blocks Using Built-In Self Test Scheme for FPGAs ...................................................... 178
  Putnanjan Samathi

Object Based Key Frame Selection for Hand Gesture Recognition ......................................................... 181
  Ketki P. Kshirsagar and Dharmpal Doye

Bio-mimetic Behaviour of IPMC Artificial Muscle Using EMG Signal ................................................... 186
  R.K. Jain, S. Datta, S. Majumder, S. Mukherjee, D. Sadhu, S. Samanta, and K. Banerjee

VLSI Architecture Design and Implementation for Application Specific CORDIC Processor ................... 191
  Amritakar Mandal, K.C. Tyagi, and Brajesh Kumar Kaushik

Frequency Domain Reflectometry Based SELT Approach for Loop Topology Estimation ......................... 194
  M. Bharathi, S. Ravishankar, and Usharani K.R.

Design of High Frequency Low Power CMOS Dual-Output Current Conveyor at 32nm Technology Node .................................................................................................................. 200
  Ale Imran, Mohd Hasan, and M.W. Akram

An Efficient 64-point Pipelined FFT Engine ......................................................................................... 204
  J.M. Rudagi, Richard Lobo, Pradeep Patil, Nikit Biraj, and Naimahmed Nesaragi

A New Approach on Congestion Control with Delay Reduction in Mobile Networks ................................ 209
  P.K. Guha Thakurta, Subhansu Bandyopadhyay, S. Basu, and S. Goswami

Segmentation and Characterization of Breast Tumor in Mammograms ................................................... 213
  Laxman Singh, Z.A. Jaffery, Z. Zaheeruddin, and Rajkumar Singh

A Hybrid Wavelet–ANN Approach in Transformer Protection ................................................................. 217
  Chakradhar Panda, Vijay Kumar Garlapati, Pratyay Konar, and Paramita Chattopadhyay

Uterus Image Segmentation Using Multi-feature EM Algorithm Based on Gabor Filter ........................... 220
  Malarkhodi S. and R.S.D. Wahida Banu

An Efficient Hybrid Predictive Model to Analyze the Visiting Characteristics of Web User Using Web Usage Mining .......................................................................................................... 225
  V.V.R. Maheswara Rao and V. Valli Kumari

Face Detection and Localization in Skin Toned Color Images Using Wavelet and Edge Detection Techniques .......................................................................................................................... 231
  H.C. Vijay Lakshmi and S. PatilKulkarni
FPGA Based Symmetric Multi-core Processors for Optimized Performance of H.264 Encoder ................................................................. 235
E. MuraliKrishnan, E. Gangadharan, and P. NirmalKumar
Multiple License Plate Extraction Based on Mathematical Morphology and Component Filtering in Indian Traffic Conditions ................................................................. 240
Chirag N. Paunwala, Suprava Patnaik, and Manoj Chaudhary
Stock Market Prediction Using a Hybrid Neuro-fuzzy System ................................................................. 243
Binoy B. Nair, M. Minuvarthini, Sujithra B., and V.P. Mohandas
Performance Comparision of Wavelet Threshold Estimators for ECG Signal Denoising ................................................................. 248
Z.A. Jaffery, K. Ahmad, and Afroz
Effective Maintenance of Replica in Distributed Network Environment Using DST ................................................................. 252
J. Amudhavel, T. Vengattaraman, M.S. Saleem Basha, and P. Dhavachelvan
Exploring Text Semantics to Extract Key-Fragments for Model Answers ................................................................. 255
Ani Thomas, M.K. Kowar, Sanjay Sharma, and H.R. Sharma
Automated Document Ranking Evaluation in Digital Libraries ................................................................. 258
Arpana Rawal, M.K. Kowar, Sanjay Sharma, and H.R. Sharma
A New Non-recursive Algorithm for Reconstructing a Binary Tree from its Traversals ................................................................. 261
Vinu V. Das
Damping Control of Automatic Voltage Regulator Loop Using Robust Control Technique ................................................................. 264
R. Behera, B.P. Panigrahi, and B.B. Pati
A Modified Approach for Measuring TCP Performance in Wireless Adhoc Network ................................................................. 267
N. Sengottaiyan, Rm. Somasundaram, and S. Arumugam
Simulation of Suspension System with Intelligent Active Force Control ................................................................. 271
K. Rajeswari and P. Lakshmi
PSO Optimized Fuzzy Logic Controller for Active Suspension System ................................................................. 278
K. Rajeswari and P. Lakshmi
Design of a Vein Based Personal Identification System ................................................................. 284
Madhumita Kathuria
An Effective Requirement Engineering Process Model for Software Development and Requirements Management ................................................................. 287
Dhirendra Pandey, U. Suman, and A.K. Ramani
Poster Papers

Microwave Applications of Metamaterials Concepts ................................................................. 292
   Kirti Inamdar, Y.P. Kosta, and Suprava Patnaik
Efficient Energy Consumption in Two Tiered Sensor Networks Using Genetic
Algorithm ...................................................................................................................................... 295
   Pottigar Vinayak Vidyasagar, Sudhir Sawarkar, and Avinash Gawande
Comparative Study of Secure vs. Non-secure Transport Protocols on the SIP
Proxy Server Performance: An Experimental Approach .......................................................... 301
   Sureshkumar V. Subramanian and Rudra Dutta
Performance Measurements and Analysis of M/M/c Queuing Model Based
SIP Proxy Servers in Local and Wide Area Networks .............................................................. 306
   Sureshkumar V. Subramanian and Rudra Dutta
Implementation of CMOS AD/DA Converter Using Pseudo Floating Gate .............................. 311
   Shweta P. Hajare and Monica V. Mankar
Multiple-Input Multiple-Valued Pseudo-floating Gate DAC ................................................................ 314
   Monica V. Mankar and Shweta P. Hajare
Unaware Routing in Highly Variable Network Traffic Using Joint Security
and Routing Analysis ............................................................................................................. 317
   M. Climent Felix and P.X. Britto
Analysis of Power Line Networks for Broadband Transmission ........................................... 321
   S. Ravishankar, K.R. Usha Rani, M. Bharathi, and H.M. Mahesh
Networks ...................................................................................................................................... 327
   Dheeraj Kumar Anand and Shiva Prakash
A Novel Approach to Find the Best Fit for VLSI Partitioning—Physical
Design ......................................................................................................................................... 330
Performance Analysis of UMTS and WLAN Interworking with Multi-service
Load ............................................................................................................................................. 333
   K. Saravanan and G. Sivaradje
Intelligent Approach to Block Objectionable Images in Websites .......................................... 337
   Bala Murali R., Aakash K., Anand S., and Chandra Sekar A.
Social Semantic Retrieval and Ranking of eResources ............................................................. 343
   Punam Bedi, Hema Banati, and Anjali Thukral
PC Based ECG Monitoring System .......................................................................................... 348
   Gayatri Gupta
Electricity Short Term Load Forecasting Using Elman Recurrent Neural
Network ....................................................................................................................................... 351
   Siddarameshwara N., Anup Yelamali, and Kshitiz Byahatti
Comparative Analysis of Adiabatic Compressor Circuits for Ultra-low Power DSP Application .......................................................................................................................... 355
   M. Chanda, P. Sil, R. Mitra, A. Dandapat, and H. Rahaman
Implementation of Ultra-Low-Power 8 Bit CLA Using Single Phase Adiabatic Dynamic Logic .......................................................................................................................... 360
   M. Chanda, S. Naha, S. Manna, A. Dandapat, and H. Rahaman
Speeding ETL Processing in Data Warehouses Using High-Performance Joins for Changed Data Capture (CDC) ................................................................................................................... 365
   Darshan M. Tank, Amit Ganatra, Y.P. Kosta, and C.K. Bhensdadia
Multilevel Security Using Aspect Oriented Programming AspectJ .......................................................................................................................... 369
   S. Kotrappa and Prakash J. Kulkarni
Algorithm Design for Generation of Fault Dictionary in Analog VLSI Circuits .......................................................................................................................... 374
   Amit Saxena, Praveen Kumar, Kavita Sharma, and Brajesh Kumar Kaushik
A Low Power High Density Double Edge Triggered Flip Flop for Low Voltage Systems .......................................................................................................................... 377
   Satish Chandra Tiwari, Kunwar Singh, and Maneesha Gupta
A Stock Market Trend Prediction System Using a Hybrid Decision Tree-Neuro-Fuzzy System .......................................................................................................................... 381
   Binoy B. Nair, N. Mohana Dharini, and V.P. Mohandas
Ensuring Data Storage Security in Cloud Computing through Two-Way Handshake Based on Token Management .......................................................................................................................... 386
   M.R. Tribhuwan, V.A. Bhuyar, and Shabana Pirzade
Feature Based Landmark Extraction for Real Time Visual SLAM .......................................................................................................................... 390
   Natesh Srinivasan
Crosstalk Estimation in Dual Aggressor Environment .......................................................................................................................... 395
   Divya Mishra, Shailendra Mishra, Dinesh Chandra, and B.K. Kaushik
A Mixed Model Based on Watershed and Active Contour Algorithms for Brain Tumor Segmentation .......................................................................................................................... 398
   Subramanya Bhat and Sanjeev Kunte R.
Iterative Maintenance Life Cycle Using eXtreme Programming .......................................................................................................................... 401
   Jitender Choudhari and Ugrasen Suman
Privacy Preservation Naïve Bayes Classification for a Vertically Distribution Scenario Using Trusted Third Party .......................................................................................................................... 404
   Keshavamurthy B.N., Mitesh Sharma, and Durga Tosniwal
Propagation Delay Variations under Process Deviation in Driver Interconnect Load System .......................................................................................................................... 408
   K.G. Verma, B.K. Kaushik, and R. Singh
Appropriate Windowing in Speech Parameter Extraction .......................................................................................................................... 411
   Moushmi Kar, Kavita Thakur, A.S. Zadgaonkar, and Bikesh Kr. Singh
Automated Detection of PD Resting Tremor Using PSD with Recurrent Neural Network Classifier ................................................................. 414
   R. Arvind, B. Karthik, N. Sriraam, and J. Kamala Kannan
Design and Analysis of Robust Dual Threshold CMOS Full Adder Circuit in 32nm Technology ........................................................................ 418
An Adaptive Method for Discovering Maximal Frequent Itemsets to Large Databases ........................................................................... 421
   V. Chandra Shekhar Rao, P. Geetha, and P.K. Vaishali
A Packet Forwarding Mechanism for MANET Using MODRP in Dynamic Source Routing (DSR) ................................................................. 426
   A. Kowshika, C. Maheswari, and S. Karthik
Comparison of LDM and HMM for an Application of a Speech .................................................................................................................. 431
   V.A. Mane, A.B. Patil, and K.P. Paradeshi
Improvement in Total Sensing Time of the Receiver in the Cognitive Radio .......................................................................................... 437
   Pradeep Aluru, Jayant Rajpurohit, Mayank Agarwal, S.V.R.K. Rao, and G. Singh
Performance Evaluation of Cognitive Radio with Emphasis on Uplink and Downlink ........................................................................ 440
   Mayank Agarwal, Jayant Rajpurohit, Pradeep Aluru, S.V.R.K. Rao, and G. Singh
A Novel Method for Heart Rate Measurement Using Bioimpedance ........................................................................................................ 443
   Padma Batra and Rajiv Kapoor
Multiple/Distributed Target Detection for HRR ............................................................................................................................ 446

Author Index ....................................................................................................................................................................................... 451
