W15 – ELSys ‘07

1st International Workshop on E-Learning Systems
Computer-based communication is one of the most fundamental changes in communication technology in the last 150 years. The proliferation of the personal computer combined with the Internet has precipitated far-reaching changes in society. Electronic communications and digital networks are transforming the way we work and the way we learn. However, since communication is at the heart of all forms of educational interaction, it is likely that its impact on education systems and individual teachers and learners will grow fast. In this context, e-learning is an all-encompassing term generally used to refer to computer-enhanced learning. It may include the use of web-based teaching materials and hypermedia in general, multimedia CD-ROMs or web sites, discussion boards, collaborative software, e-mail, blogs, wikis, computer aided assessment, educational animation, simulations, games, learning management software, electronic voting systems and more, with possibly a combination of different methods being used.

This workshop wants to offer an ideas exchange platform to all e-learning researchers and application companies.

ELSys '07 Committees

Chair
Ernesto Damiani, University of Milan, Italy

Co-chair
Stefania Marrara, University of Milan, Italy
Lorna Uden, Staffordshire University, UK

Program Committee
Antonia Azzini, University of Milan, Italy
Tom Page, Loughborough University UK
Michael Callaghan, Ulster University, UK
Patrizia Scandurra, University of Milan, Italy
Gabriella Pasi, University of Milan Bicocca, Italy
Annamaria Tammaro, University of Parma, Italy
Fu-Kwun Hwang, National Taiwan Normal University, Taipei Taiwan
Pekka Makkonen, University of Jyvaskyla, Finland
Eric K. W. Lau, City University of Hong Kong, China
Shu-Sheng Liaw, China Medical University, Taiwan
Alexandra I. Cristea, University of Warwick, UK
Martin Weller, The Open University, Milton Keynes UK
Gianluca Elia, University of Lecce, Italy
Elisabeth Chang, Curtin University of Technology, Perth, Australia
Heinz V. Dreher, Curtin University of Technology, Perth, Australia
Steven Quinton, Curtin University of Technology, Perth, Australia
Manuela Milani, Université Louis Pasteur, Strasbourg, France
