Demonstrations

Mining Repositories

Perceval: Software Project Data at Your Will .................................................. 1
   Santiago Dueñas (Bitergia), Valerio Cosentino (Bitergia), Gregorio Robles (Universidad Rey Juan Carlos), and Jesus M. González-Barahona (Universidad Rey Juan Carlos)

StackInTheFlow: Behavior-Driven Recommendation System for Stack Overflow Posts ............................................ 5
   Chase Greco (Virginia Commonwealth University), Tyler Haden (Virginia Commonwealth University), and Kostadin Damevski (Virginia Commonwealth University)
Test Automation and Failure Diagnosis

Aletheia: A Failure Diagnosis Toolchain
Mojdeh Golagha (Technical University of Munich), Abu Mohammed Raisuddin (Technical University of Munich), Lennart Mittag (Technical University of Munich), Dominik Hellhake (Technical University of Munich), and Alexander Pretschner (Technical University of Munich)

When the Testing Gets Tough, the Tough Get ElasTest
Antonia Bertolino (CNR-ISTI), Antonello Calabró (CNR-ISTI), Guglielmo De Angelis (CNR-IASI), Micael Gallego (Universidad Rey Juan Carlos), Boni García (Universidad Rey Juan Carlos), and Francisco Gortázar (Universidad Rey Juan Carlos)

SUSHI: A Test Generator for Programs with Complex Structured Inputs
Pietro Braione (University of Milano-Bicocca), Giovanni Denaro (University of Milano-Bicocca), Andrea Mattavelli (Imperial College London), and Mauro Pezzè (University of Milano-Bicocca and Università della Svizzera italiana (USI))

Mutation Testing

An Extensible, Regular-Expression-Based Tool for Multi-language Mutant Generation
Alex Groce (Northern Arizona University), Josie Holmes (Northern Arizona University), Darko Marinov (University of Illinois at Urbana-Champaign), August Shi (University of Illinois at Urbana-Champaign), and Lingming Zhang (The University of Texas at Dallas)

MuAlloy: A Mutation Testing Framework for Alloy
Kaiyuan Wang (University of Texas at Austin), Allison Sullivan (University of Texas at Austin), and Sarfraz Khurshid (University of Texas at Austin)

MDroid+: A Mutation Testing Framework for Android
Kevin Moran (College of William & Mary), Michele Tufano (College of William & Mary), Carlos Bernal-Cárdenas (College of William & Mary), Mario Linares-Vásquez (Universidad de los Andes), Gabriele Bavota (Università della Svizzera Italiana), Christopher Vendome (College of William & Mary), Massimiliano Di Penta (University of Sannio), and Denys Poshyvanyk (College of William & Mary)
Performance and NFR

The Palladio-Bench for Modeling and Simulating Software Architectures ............................................. 37
Robert Heinrich (Karlsruhe Institute of Technology), Dominik Werle (Karlsruhe Institute of Technology), Heiko Klare (Karlsruhe Institute of Technology), Ralf Reussner (Karlsruhe Institute of Technology), Max Kramer (Karlsruhe Institute of Technology), Steffen Becker (University of Stuttgart), Jens Happe (avenyou GmbH), Heiko Koziolek (ABB Corporate Research), and Klaus Krogmann (LogMeIn)

PerformanceHat – Augmenting Source Code with Runtime Performance Traces in the IDE .......................... 41
Jürgen Cito (University of Zurich), Philipp Leitner (Chalmers University of Gothenburg), Christian Bosshard (ergon Informatik AG), Markus Knecht (University of Zurich), Genc Mazlami (zählke Engineering), and Harald C. Gall (University of Zurich)

PROMOpedi: A Web-Content Management-Based Encyclopedia of Software Property Models .................. 45
Séverine Sentilles (Mälardalen University), Federico Ciccozzi (Mälardalen University), and Efi Papatheocharous (RISE SICS)

Evolution

GuideGen - A Tool for Keeping Requirements and Acceptance Tests Aligned .............................................. 49
Sofija Hotomski (University of Zurich) and Martin Glinz (University of Zurich)

EVA: A Tool for Visualizing Software Architectural Evolution .................................................................. 53
Daye Nam (University of Southern California), Youn Kyu Lee (University of Southern California), and Nenad Medvidovic (University of Southern California)

CSlicerCloud: A Web-Based Semantic History Slicing Framework ......................................................... 57
Yi Li (University of Toronto), Chenguang Zhu (The University of Texas at Austin), Julia Rubin (The University of British Columbia), and Marsha Chechik (University of Toronto)

Testing Vulnerabilities

SAFL: Increasing and Accelerating Testing Coverage with Symbolic Execution and Guided Fuzzing .......... 61
Mingzhe Wang (Tsinghua University), Jie Liang (Tsinghua University), Yuanliang Chen (Tsinghua University), Yu Jiang (Tsinghua University), Xin Jiao (University of California San Diego), Han Liu (Tsinghua University), Xi Bin Zhao (National Engineering Research Center for Enterprise informatization), and Jiaguang Sun (Tsinghua University)

ReGuard: Finding Reentrancy Bugs in Smart Contracts ........................................................................... 65
Chao Liu (Peking University), Han Liu (Tsinghua University), Zhao Cao (Chieftin Lab), Zhong Chen (Peking University), Bangdao Chen (Chieftin Lab), and Bill Roscoe (Chieftin Lab)

Weak-Assert: A Weakness-Oriented Assertion Recommendation Toolkit for Program Analysis ................. 69
Cong Wang (Tsinghua University), Yu Jiang (Tsinghua University), Xibin Zhao (Tsinghua University), Xiaoyu Song (Department of Electrical and Computer Engineering), Ming Gu (Tsinghua University), and Jiaguang Sun (Tsinghua University)
SPLs and OO Repair

KernelHaven – An Experimentation Workbench for Analyzing Software Product Lines ........................................ 73
Christian Kröher (University of Hildesheim), Sascha El-Sharkawy (University of Hildesheim), and Klaus Schmid (University of Hildesheim)

Elixir: An Automated Repair Tool for Java Programs .......................................................... 77
Ripon Saha (Fujitsu Laboratories of America), Hiroaki Yoshida (Fujitsu Laboratories of America), Mukul Prasad (Fujitsu Laboratories of America), Susumu Tokumoto (Fujitsu Laboratories Ltd.), Kuniharu Takayama (Fujitsu Laboratories Ltd.), and Isao Nanba (Fujitsu Laboratories Ltd.)

Multi-view Editing of Software Product Lines with PEOPL ........................................... 81
Mukelabai Mukelabai (Chalmers and University of Gothenburg), Benjamin Behringer (htw saar), Moritz Fey (htw saar), Jochen Palz (htw saar), Jacob Krüger (Harz University and University of Magdeburg), and Thorsten Berger (Chalmers and University of Gothenburg Sweden)

Static Analysis

AnATLyzer: An Advanced IDE for ATL Model Transformations ........................................ 85
Jesús Sánchez Cuadrado (Universidad de Murcia), Esther Guerra (Universidad Autónoma de Madrid), and Juan de Lara (Universidad Autónoma de Madrid)

VisuFlow: A Debugging Environment for Static Analyses ........................................... 89
Lisa Nguyen Quang Do (Fraunhofer IEM), Stefan Krüger (Paderborn University), Patrick Hill (Paderborn University), Karim Ali (University of Alberta), and Eric Bodden (Paderborn University & Fraunhofer IEM)

SQLInspect: A Static Analyzer to Inspect Database Usage in Java Applications .................. 93
Csaba Nagy (University of Namur) and Anthony Cleve (University of Namur)

Model-Driven Development

MDebugger: A Model-Level Debugger for UML-RT ............................................................ 97
Mojtaba Bagherzadeh (Queen's University), Nicolas Hili (Queen's University), David Seekatz (Queen's University), and Juergen Dingel (Queen's University)

Mirko D'Angelo (Linnaeus University), Annalisa Napolitano (IMT School for Advanced Studies), and Mauro Caporuscio (Linnaeus University)

ReVision: A Tool for History-Based Model Repair Recommendations .......................... 105
Manuel Ohrndorf (University of Siegen), Christopher Pietsch (University of Siegen), Udo Kelter (University of Siegen), and Timo Kehrer (Humboldt-University of Berlin)
Verification

COMB: Computing Relevant Program Behaviors .................................................................................................. 109
Benjamin Holland (Iowa State University), Payas Awadhutkar (Iowa State University), Suresh Kothari (Iowa State University), Ahmed Tamrawi (EnSoft Corp), and Jon Mathews (EnSoft Corp)

The Gamma Statechart Composition Framework: Design, Verification and Code Generation for Component-Based Reactive Systems ........................................................................................................ 113
Vince Molnár (Fault Tolerant Systems Research Group), Bence Graics (Fault Tolerant Systems Research Group), András Vörös (Fault Tolerant Systems Research Group), István Majzik (Fault Tolerant Systems Research Group), and Dániel Varró (Fault Tolerant Systems Research Group)

A Regression Proof Selection Tool For Coq .................................................................................................... 117
Ahmet Celik (The University of Texas at Austin), Karl Palmskog (University of Illinois at Urbana-Champaign), and Milos Gligoric (The University of Texas at Austin)

Posters

Poster: Industrie 4.0 Virtual Automation Bus .................................................................................................... 121
Thomas Kuhn (Fraunhofer Institute IESE), Pablo Oliveira Antonino de Assis (Fraunhofer Institute IESE), Markus Damm (Fraunhofer Institute IESE), Andreas Morgenstern (Fraunhofer Institute IESE), Dirk Schulz (ABB Corporate Research Center Germany), Constantin Ziesche (Robert Bosch GmbH), and Thorsten Müller (SMS group GmbH)

Poster: An Empirical Study of the Product Owner Role in Scrum .................................................................... 123
Julian Bass (University of Salford), Sarah Beecham (Lero - the Irish Software Engineering Research Centre), Mohammad Abdur Razzak (Lero-the Irish Software Research Centre), Clodagh Nic Canna (Ocuco Ltd), and John Noll (University of East London)

Poster: Reengineering Legacy Systems for Supporting SOA: A Case Study on the Brazilian's Secretary of State for Taxation ...................................................................................................................... 125
Yan de Lima Justino (Federal University of Rio Grande do Norte) and Carlos Eduardo da Silva (Federal University of Rio Grande do Norte)

Poster: Results from Multi-faceted Software Reliability Assessment Studies .................................................. 127
Yaping Luo (Altran Netherlands B.V.) and Egbert Touw (Altran Netherlands B.V.)

Poster: An Initial Characterization of Bug-Injecting Development Sessions .................................................. 129
Irina Diana Coman (The Most Serene Republic), Alberto Sillitti (Innopolis University), and Giancarlo Succi (Innopolis University)

Poster: Challenges with Automotive Test Case Specifications ....................................................................... 131
Juhnke Katharina (Daimler AG), Tichy Matthias (Ulm University), and Frank Houdek (Daimler AG)
Poster: Understanding the Role of Reporting in Work Item Tracking Systems for Software Development: An Industrial Case Study

Pavneet Singh Kochhar (Singapore Management University), Stanislaw Swierc (Microsoft), Trevor Carnahan (Microsoft), Hitesh Sajnani (Microsoft), and Meiyappan Nagappan (University of Waterloo)

Poster: When Students Meet Developers: Are Barcamps a Format for Interactive Software Engineering Education?

Bianca Bergande (Neu-Ulm University of Applied Sciences) and Philipp Brune (Neu-Ulm University of Applied Sciences)

Poster: A Methodology to Teaching Statistical Process Control for Software Engineers

Julio Furtado (Federal University of Pará - Brazil) and Sandro Oliveira (Federal University of Pará - Brazil)

Poster: A Matrix for Analyzing Projects in Software Engineering Courses

Jakeline Marcos-Abed (Tecnológico de Monterrey.)

Poster: Continuous Inspection in the Classroom: Improving Students’ Programming Quality with Social Coding Methods

Yao Lu (National University of Defense Technology), Xinjun Mao (National University of Defense Technology), Tao Wang (National University of Defense Technology), Gang Yin (National University of Defense Technology), Zude Li (Central South University), and Huaimin Wang (National University of Defense Technology)

Poster: Startup Software Development Education: A Systematic Mapping Study

Rafael Chanin (PUCRS), Afonso Sales (PUCRS), Leandro Pompermaier (PUCRS), and Rafael Prikladnicki (PUCRS)

Poster: Analyzing the Transactive Memory in Teaching Software Engineering

Styliani Kleanthous (University of Cyprus) and Georgia Kapitsaki (University of Cyprus)

Poster: Improving Formation of Student Teams: A Clustering Approach

Shoaib Akbar (University of North Carolina Charlotte), Edward Gehringer (North Carolina State University), and Zhengwei Hu (North Carolina State University)

Poster: Are Our Students Engaged in Their Studies? Professional Engagement vs. Study Engagement

Arnon Sturm (Ben Gurion University of the Negev) and Timothy C. Lethbridge (University of Ottawa)

Poster: Multidisciplinary Skill Assessment for Embedded Software Development Education via a Robot Contest

Harumi Watanabe (Tokai University), Mikiko Sato (Tokai University), Masafumi Miwa (Tokushima University), Makoto Inamura (Tokai University), Shintaro Hosoi (Change Vision), Nobuhiko Ogura (Tokyo City University), Hiroyuki Nakamura (Kyushu University), and Kenji Hisazumi (Kyushu University)

Poster: PBL Planner Toolkit: A Canvas-Based Tool for Planning PBL in Software Engineering Education

Gustavo Alexandre (CESAR School) and Simone Santos (Chn-UFPE)

Poster: Challenge-Based Learning: A Brazilian Case Study

Alan Santos (PUCRS), Afonso Sales (PUCRS), Paulo Fernandes (PUCRS), and Josiane Kroll (University of Manitoba)
Poster: A Conceptual Model for Cooperative Thinking ................................................................. 157
  Daniel Russo (DISI), Marcello Missiroli (DISI), and Paolo Ciancarini (DISI)

Poster: Situation-Based E-Learning in Software Engineering ....................................................... 159
  Wilhelm Koop (University of Duisburg-Essen), Tobias Brückmann (CampusLab GmbH), Marian Benner-Wickner (CampusLab GmbH), Markus Kleinschmidt (CampusLab GmbH), and Volker Gruhn (University of Duisburg-Essen)

Poster: A Multi-year Analysis of Students' Build Errors in Agile Software Development Educational Projects ................................................................. 161
  Erina Makihara (Nara Institute of Science and Technology), Hiroshi Igaki (Osaka Institute of Technology), Norihiro Yoshida (Nagoya University), Kenji Fujiwara (National Institute of Technology), Naoki Kawashima (Nara Institute of Science and Technology), and Hajimu Iida (Nara Institute of Science and Technology)

Poster: Deciding Weak Monitorability for Runtime Verification ..................................................... 163
  Zhe Chen (Nanjing University of Aeronautics and Astronautics), Yifan Wu (Nanjing University of Aeronautics and Astronautics), Ou Wei (Nanjing University of Aeronautics and Astronautics), and Bin Sheng (Nanjing University of Aeronautics and Astronautics)

  Amar Budhiraja (Microsoft), Raghu Reddy (IIIT-Hyderabad), and Manish Shrivastava (IIIT-Hyderabad)

Poster: Inferring API Elements Relevant to an English Query ........................................................ 167
  Thanh Nguyen (Iowa State University) and Tien Nguyen (The University of Texas at Dallas)

Poster: A Study of Monitoring Crosscutting Concerns Implementation ........................................ 169
  Grigoreta-Sofia Cojocar (Babes-Bolyai University) and Adriana-Mihaela Guran (Babes-Bolyai University)

Poster: Duplicate Finder Toolkit .................................................................................................. 171
  Dmitry Luciv (Saint Petersburg State University and LANIT-TERCOM LLC), Dmitrij Koznov (Saint Petersburg State University), George Chernishev (Saint Petersburg State University), Hamid Abdul Basit (Lahore University of Management Sciences), Konstantin Romanovsky (Saint Petersburg State University), and Andrey Terekhov (Saint Petersburg State University)

Poster: Toward the Development of Richer Properties for Recommender Systems ....................... 173
  David Shriver (University of Nebraska-Lincoln)

Poster: Automatic Detection of Inverse Operations while Avoiding Loop Unrolling ....................... 175
  Kunal Banerjee (Intel Labs), Ramanuj Chouksey (IIT Guwahati), Chandan Karfa (IIT Guwahati), and Pankaj Kumar Kalita (IIT Guwahati)

Poster: Efficiently Finding Minimal Failing Input in MapReduce Programs .................................... 177
  Muhammad Sohaib Ayub (Lahore University of Management Sciences) and Junaid Haroon Siddiqui (Lahore University of Management Sciences)

Poster: Forks Insight: Providing an Overview of GitHub Forks .................................................... 179
  Luyao Ren (Peking University), Shurui Zhou (Carnegie Mellon University), and Christian Kästner (Carnegie Mellon University)
Poster: Use of Trace Link Types in Issue Tracking Systems .......................................................... 181
   Mihaela Todorova Tomova (Technische Universität Ilmenau), Michael Rath
   (Technische Universität Ilmenau), and Patrick Mäder (Technische
   Universität Ilmenau)

Poster: A Topic Analysis of the R Programming Language .......................................................... 183
   Abigail Atchison (Chapman University), Haley Anderson (Chapman
   University), Christina Berardi (Chapman University), Natalie Best
   (Chapman University), Cristiano Firmani (Chapman University), Rene
   German (Chapman University), and Erik Linstead (Chapman University)

Poster: Architecture Reconstruction and Evaluation of Blockchain Open Source Platform ...................... 185
   Jungho Kim (Korea Advanced Institute of Science and Technology),
   Sungwon Kang (Korea Advanced Institute of Science and Technology), Hwi
   Ahn (Korea Advanced Institute of Science and Technology), Changsup
   Keum (Electronics and Telecommunications Research Institute), and
   Chan-Gun Lee (Chung-Ang University)

Poster Agile Requirement Traceability Matrix ............................................................................. 187
   Serin Jeong (Gyeongsang National University), Heetae Cho (Gyeongsang
   National University), and Seonah Lee (Gyeongsang National University)

Poster: Beyond Spatial and Temporal Memory Safety .................................................................... 189
   Zhe Chen (Nanjing University of Aeronautics and Astronautics), Chuanqi
   Tao (Nanjing University of Aeronautics and Astronautics), Zhiyi Zhang
   (Nanjing University of Aeronautics and Astronautics), and Zhibin Yang
   (Nanjing University of Aeronautics and Astronautics)

Poster: A Novel Shared Memory Framework for Distributed Deep Learning in High-Performance Computing
   Architecture ............................................................................................................................ 191
   Shinyoung Ahn (KAIST & ETRI), Joongheon Kim (Chung-Ang Univ.), and
   Sungwon Kang (KAIST)

   Repositories ............................................................................................................................. 193
   Amar Budhiraju (Microsoft), Kartik Dutta (IIIT-Hyderabad), Raghu Reddy
   (IIIT-Hyderabad), and Manish Shrivastava (IIIT-Hyderabad)

Poster: Live Path Control Flow Integrity .......................................................................................... 195
   Mohamad Barbar (University of Technology Sydney), Yulei Sui
   (University of Technology Sydney), Hongyu Zhang (University of
   Newcastle), Shiping Chen (CSIRO/Data61), and Jingling Xue (University
   of New South Wales)

Poster: Using Repository Data for Driving Software Architecture ................................................... 197
   Tobias Olsson (Linnaeus University), Morgan Ericsson (Linnaeus
   University), and Anna Wingkvist (Linnaeus University)

Poster: Analysis of Requirements Quality Evolution ......................................................................... 199
   Eugenio Parra (Universidad Carlos III de Madrid), Jose Luis de la Vara
   (Universidad Carlos III de Madrid), and Luis Alonso (The REUSE
   Company)

Poster: Using Consensus to Automatically Infer Post-conditions .................................................... 202
   Jingyi Su (Bowling Green State University), Mohd Arafat (Bowling Green
   State University), and Robert Dyer (Bowling Green State University)

xii
Poster: Pairika—A Failure Diagnosis Benchmark for C++ Programs ................................................................. 204
  Md. Rezaur Rahman (Technical University of Munich), Mojdeh Golagha
  (Technical University of Munich), and Alexander Pretschner (Technical
  University of Munich)

Poster: Towards Safe Refactoring for Intelligent Parallelization of Java 8 Streams ................................. 206
  Yiming Tang (City University of New York), Raffi Khatchadourian (City
  University of New York), Mehdi Bagherzadeh (Oakland University), and
  Syed Ahmed (Oakland University)

Poster: Testing Web-Based Applications with the Voice Controlled Accessibility and Testing Tool
  (VCAT) ....................................................................................................................................................... 208
  Nagendra Prasad Kasaghatta Ramachandra (University of Texas at
  Arlington) and Christoph Csallner (University of Texas at Arlington)

Poster: Leveraging Product Relationships to Generate Candidate Bugs for Duplicate Bug Prediction ........... 210
  Emily Su (Oracle Corporation) and Sameer Joshi (Oracle Corporation)

Poster: Protecting Remote Controlling Apps of Smart-Home-Oriented IOT Devices .............................. 212
  Eric Ruiz (University of Texas at San Antonio), Richard Avelar
  (University of Texas at San Antonio), and Xiaoyin Wang (University of
  Texas at San Antonio)

Poster: MC/DC Coverage-Oriented Compiler Optimization for Symbolic Execution ............................ 214
  Yijun Liu (National University of Defense Technology Changsha),
  Zhenbang Chen (National University of Defense Technology Changsha),
  Wei Dong (National University of Defense Technology Changsha), and
  Chendong Feng (National University of Defense Technology Changsha)

Poster: Introducing Quality Models Based on Joint Probabilities ............................................................. 216
  Maria Ulan (Linnaeus University), Welf Löwe (Linnaeus University),
  Morgan Ericsson (Linnaeus University), and Anna Wingkvist (Linnaeus
  University)

Poster: Program Repair that Learns from Mistakes .................................................................................... 218
  Bat-Chen Rothenberg (Technion - Israel Institute of Technology) and
  Orna Grumberg (Technion - Israel Institute of Technology)

Poster: A Changeset-Based Approach to Assess Source Code Density and Developer Efficacy ............. 220
  Sebastian Hönel (Linnaeus University), Morgan Ericsson (Linnaeus
  University), Welf Löwe (Linnaeus University), and Anna Wingkvist
  (Linnaeus University)

Poster: Discovering Requirements of Behaviour Change Software Systems from Negative User Experience .... 222
  Nelly Condori-Fernandez (Universidade da Coruña), Alejandro Catala
  Bolos (University of Twente), and Patricia Lago (Vrije Universiteit
  Amsterdam)

Poster: Understanding Newcomers Success in Open Source Community .............................................. 224
  Shahab Bayati (The University of Auckland)

Poster: Swarming Remote Piloted Aircraft Systems for Mosquito-Borne Disease Research and Control ...... 226
  Janet Wyngaard (University of Notre Dame), Samuel Rund (University of
  Notre Dame), Gregory Madey (University of Notre Dame), Michael
  Vierhauser (University of Notre Dame), and Jane Cleland-Huang
  (University of Notre Dame)
Poster: Ethics-Aware Software Engineering  
Fatma Basak Aydemir (Utrecht University) and Fabiano Dalpiaz (Utrecht University)  
228

Poster: An Efficient Approach for Verifying Automobile Distributed Application Systems on Timing Property  
Haitao Zhang (Lanzhou University), Guoqiang Li (Shanghai Jiao Tong University), Xiaohong Li (Tianjin University), Zhuo Cheng (Jiangxi Normal University), Jinyun Xue (Jiangxi Normal University), and Shaoying Liu (Hosei University)  
230

Poster: Adoption of the Visual Brainstorming Technique in the Open Source Software Development Process  
Lucrecia Llerena (Dpto. de Ingeniería Informática), Nancy Rodríguez (Dpto. de Ingeniería Informática), Pablo Gomez-Abajo (Dpto. de Ingeniería Informática), John W. Castro (Dpto. de Ingeniería Informática y Cs. de la Computación), and Silvia T. Acuña (Dpto. de Ingeniería Informática)  
232

Poster: A General Framework to Detect Behavioral Design Patterns  
Cong Liu (Eindhoven University of Technology), Boudewijn van Dongen (Eindhoven University of Technology), Nour Assy (Eindhoven University of Technology), and Wil M.P van der Aalst (RWTH Aachen University)  
234

Poster: Subsuming Mutation Operators  
Huan Lin (State Key Laboratory of Networking and Switching Technology), Yawen Wang (State Key Laboratory of Networking and Switching Technology), and Yunzhan Gong (State Key Laboratory of Networking and Switching Technology)  
236

Poster: Detecting Missing Checks for Identifying Insufficient Attack Protections  
Lingyun Situ (Nanjing University), Liang Zou (Nanyang Technological University), Linzhang Wang (Nanjing University), Yang Liu (Nanyang Technological University), Bing Mao (Nanjing University), and Xuandong Li (Nanjing University)  
238

Poster: How Do Community Smells Influence Code Smells?  
Fabio Palomba (University of Zurich), Damian A. Tamburri (Eindhoven University of Technology), Alexander Serebrenik (Eindhoven University of Technology), Andy Zaidman (Delft University of Technology), Francesca Arcelli Fontana (University of Milano-Bicocca), and Rocco Oliveto (University of Molise)  
240

Poster: Communication in Open-Source Projects—End of the E-mail Era?  
Verena Käfer (University of Stuttgart), Daniel Graziotin (University of Stuttgart), Ivan Bogicevic (University of Stuttgart), Stefan Wagner (University of Stuttgart), and Jasmin Ramadani (University of Stuttgart)  
242

Poster: Predicting Components for Issue Reports Using Deep Learning with Information Retrieval  
Morakot Choekiertikul (University of Wollongong), Hoa Khanh Dam (University of Wollongong), Truyen Tran (Deakin University), Trang Pham (Deakin University), and Aditya Ghose (University of Wollongong)  
244
Poster: An Experimental Analysis of Fault Detection Capabilities of Covering Array Constructors .......................... 246
Rubing Huang (Jiangsu University), Yunan Zhou (Jiangsu University),
Tsong Yueh Chen (Swinburne University of Technology), Dave Towey
(University of Nottingham Ningbo China), and Jinfu Chen (Jiangsu University)

Poster: Are Information Retrieval-Based Bug Localization Techniques Trustworthy? .............................................. 248
Misoo Kim (Sungkyunkwan University) and Eunseok Lee (Sungkyunkwan University)

Poster: Accelerating Counterexample Detection in Software Model Checking ......................................................... 250
Cong Tian (Xidian University), Zhao Duan (Xidian University), and
Zhenhua Duan (Xidian University)

Poster: A Novel Variable-centric Fault Localization Technique ............................................................. 252
Jeongho Kim (Sungkyunkwan University), Jindae Kim (HKUST), and Eunseok Lee (Sungkyunkwan University)

Poster: Android Inter-Component Communication Analysis with Intent Revision ...................................................... 254
Cong Tian (Xidian University), Congli Xia (Xidian University), and
Zhenhua Duan (Xidian University)

Poster: Exploration of Academic and Industrial Evidence about Architectural Tactics and Patterns in
Microservices ......................................................................................................................................................... 256
Felipe Osses (Universidad Tecnica Federico Santa Maria), Gastón
Márquez (Universidad Tecnica Federico Santa Maria), and Hernán
Astudillo (Universidad Tecnica Federico Santa Maria)

Poster: Automatically Solving NP-Complete Problems on a Quantum Computer .................................................... 258
Shaohan Hu (IBM Research), Peng Liu (IBM Research), Chun-Fu (Richard)
Chen (IBM Research), and Marco Pistoia (IBM Research)

Poster: Guiding Developers to Make Informative Commenting Decisions in Source Code ................................. 260
Yuan Huang (Sun Yat-sen University), Nan Jia (Hebei GEO University),
Qiang Zhou (Sun Yat-sen University), Xiangping Chen (Sun Yat-sen
University), Xiong Yingfei (Peking University), and Xiaonan Luo (Sun
Yat-sen University)

Poster: Making Well-Informed Software Design Decisions .................................................................................. 262
Arman Shahbazian (University of Southern California), Youn Kyu Lee
(University of Southern California), Yuriy Brun (University of
Massachusetts Amherst), and Nenad Medvidovic (University of Southern California)

Poster: Runtime Verification of Memory Safety via Source Transformation .......................................................... 264
Zhe Chen (Nanjing University of Aeronautics and Astronautics), Junqi
Yan (Nanjing University of Aeronautics and Astronautics), Wenming Li
(Nanjing University of Aeronautics and Astronautics), Ju Qian (Nanjing
University of Aeronautics and Astronautics), and Zhiqiu Huang (Nanjing
University of Aeronautics and Astronautics)

Poster: Synthesizing Relation-Aware Entity Transformation by Examples ........................................................... 266
Jiarong Wu (Nanjing University), Yanyan Jiang (Nanjing University),
Chang Xu (Nanjing University), Shing-Chi Cheung (Hong Kong University
of Science and Technology), Xiaoxing Ma (Nanjing University), and Jian
Lu (Nanjing University)
Poster: Testing Heap-Based Programs with Java StarFinder

Long H. Pham (Singapore University of Technology and Design), Quang Loc Le (Teesside University), Quoc-Sang Phan (Fujitsu Labs. of America), Jun Sun (Singapore University of Technology and Design), and Shengchao Qin (Teesside University)

Poster: Automatically Answering API-Related Questions

Di Wu (State Key Laboratory of Software Engineering), Xiao-Yuan Jing (State Key Laboratory of Software Engineering), Haowen Chen (State Key Laboratory of Software Engineering), Xiaoke Zhu (State Key Laboratory of Software Engineering), Hongyu Zhang (School of Electrical Engineering and Computing), Mei Zuo (State Key Laboratory of Software Engineering), Lu Zi (State Key Laboratory of Software Engineering), and Chen Zhu (State Key Laboratory of Software Engineering)

Poster: Exploring Uncertainty in GitHub OSS Projects: When and How Do Developers Face Uncertainty?

Naoyasu Ubayashi (Kyushu University), Hokuto Muraoka (Kyushu University), Daiki Muramoto (Kyushu University), Yasutaka Kamei (Kyushu University), and Ryosuke Sato (Kyushu University)

Poster: Systematic Top-Down Design of Cyber-Physical Models with Integrated Validation and Formal Verification

Christoph Luckeneder (TU Wien) and Hermann Kaindl (TU Wien)

Poster: On Vulnerability Evolution in Android Apps

Jun Gao (University of Luxembourg), Li Li (Monash University), Pingfan Kong (University of Luxembourg), Tegawendé F. Bissyandé (University of Luxembourg), and Jacques Klein (University of Luxembourg)

Poster: UMLx: A UML Diagram Analytic Tool for Software Management Decisions

Kan Qi (University of Southern California) and Barry Boehm (University of Southern California)

Poster: Unit Tests and Component Tests do Make a Difference on Fault Localisation Effectiveness

Gulsher Laghari (Universiteit Antwerpen) and Serge Demeyer (Universiteit Antwerpen)

Poster: Recommending Exception Handling Patterns with ExAssist

Tam Nguyen (Auburn University), Phong Vu (Auburn University), Hung Pham (University of Waterloo), and Tung Nguyen (Auburn University)

Poster: ALPACA-Advanced Linguistic Pattern and Concept Analysis Framework for Software Engineering Corpora

Phong Vu (Auburn University), Tam Nguyen (Auburn University), Hung Pham (University of Waterloo), and Tung Nguyen (Auburn University)

Poster: Combining STPA and BDD for Safety Analysis and Verification in Agile Development

Yang Wang (University of Stuttgart) and Stefan Wagner (University of Stuttgart)

Poster: Machine Learning Based Code Smell Detection Through WekaNose

Umberto Azadi (Università degli Studi di Milano Bicocca), Francesca Arcelli Fontana (Università degli Studi di Milano Bicocca), and Marco Zanoni (Università degli Studi di Milano Bicocca)

Poster: Knowledge-Enriched Security and Privacy Threat Modeling

Laurens Sion (KU Leuven), Koen Yskout (KU Leuven), Dimitri Van Landuyt (KU Leuven), and Wouter Joosen (KU Leuven)
Poster: CrossEcore: An Extendible Framework to Use Ecore and OCL Across Platforms ........................................... 292
Simon Schwichtenberg (Paderborn University), Ivan Jovanovikj
(Paderborn University), Christian Gerth (Hochschule Osnabrück), and
Gregor Engels (Paderborn University)

Poster: Semantically Enhanced Tag Recommendation for Software CQAs via Deep Learning .............................. 294
Jian Zhang (Beihang University), Hailong Sun (Beihang University),
Yanfei Tian (Beihang University), and Xudong Liu (Beihang University)

Poster: QoS-Aware Service Composition Using Blockchain-Based Smart Contracts ............................................. 296
Puwei Wang (University of China), Xiaohu Liu (University of China),
Jinchuan Chen (University of China), Ying Zhan (Guizhou University of
Finance and Economics), and Zhi Jin (Peking University)

Poster: An Automated and Instant Discovery of Concrete Repairs for Model Inconsistencies ....................... 298
Roland Kretschmer (Johannes Kepler Universität Linz), Djamel Eddine
Khelladi (Johannes Kepler University Linz), and Alexander Egyed
(Johannes Kepler University Linz)

Poster: Knowledge Transfer from Research to Industry: A Survey on Program Comprehension .......................... 300
Ivonne von Nostitz-Wallwitz (University of Magdeburg & METOP GmbH),
Jacob Krüger (University of Magdeburg & Harz University), Janet
Siegmund (University of Passau), and Thomas Leich (Harz University &
METOP GmbH)

Poster: MOBS: Multi-operator Observation-Based Slicing Using Lexical Approximation of Program Dependence .......................................................... 302
Seongmin Lee (KAIST), David Binkley (Loyola University Maryland),
Nicolas Gold (University College London), Syed Islam (University of
East London), Jens Krinke (University College London), and Shin Yoo
(KAIST)
