Message from the WETICE 2016 General Chair

I am very pleased to welcome all of you to the 25th (the Silver Jubilee year) IEEE International WETICE Conference in Paris. The WETICE conference has been held very successfully in France three times before: twice in Paris (2007 and 2011) in the campus of Télécom SudParis (Institut Mines-Télécom), and once in LAAS-CNRS in Toulouse (2012).

This year WETICE was sponsored by the IEEE Computer Society, CERC of West Virginia University, PSB–Paris School of Business, the CNRS Samovar Research Lab, and Télécom SudParis (Institut Mines-Télécom). We gratefully acknowledge their contributions.

Many people contributed to the success of the 25th WETICE conference. First of all, I would like to thank the WETICE organizers, Professor Samir Tata, Professor Walid Gaaloul, and Associate Professor Layth Sliman, for their continuous involvement and active participation in all aspects of the WETICE events. My heartfelt thanks go to the Program Chairs of WETICE: Professor Federico Bergenti, Professor Walid Gaaloul, and Professor Pascal Poizat for managing the paper submission-selection-and-coordination activities to ensure high quality of the accepted papers. Special thanks go to all of the WETICE Track Chairs, scientific reviewers, and most importantly to all the authors for their participation at WETICE.

Next year the venue for WETICE 2017 will be the city of Poznan situated on the banks of the Warta River in Poland. Please visit www.wetice.org periodically for further information.

Marjorie-Annick Lecerf  
Academic Dean of PSB, and General Chair, WETICE 2016
