Message from the Program Committee Chairs

The conference will continue to feature research and practice papers, focusing on Web techniques covering Web Data Management, Web Information Integration, Web Services, Semantic Web, Web Data Mining, etc., and it will play an important role in information system of various organizations and enterprises. The objective of the conference is to bring together researchers, practitioners, and developers to share their experiences on Web information systems and applications.

WISA 2010 will be held in Hohot, the capital of Inner Mongolia Autonomous Region, and organized by the Inner Mongolia University. The conference includes 10 sessions of paper presentations, panel discussions and workshops, including many theoretical and practical aspects of Web techniques.

WISA 2010 attracted 134 submissions. After a through review process based on referee reports, 26 full research papers (acceptance ratio 19.40%) and 22 short papers (acceptance ratio 16.42%) were selected by the program committee.

The success of WISA 2010 is attributed to many people. We are grateful to the WISA Steering Committee, the Organizing Committee, the Program Committee members, and many external reviewers for their excellent works. We also thank all authors for submitting high-quality work to the conference.

We would like to thank the Conference Chairs Professor Guanglai Gao, Professor Chen-Yu (Phillip) Sheu, Professor Fang Yuan, Professor Guoren Wang, Publication Chair, Doctor Lin Chen; the Publicity Chair, Professor Lizhen Xu. We would like to express our appreciation to the Inner Mongolia University, especially, thank the local Arrangements Committee, led by Guanglai Gao and Fang Yuan, and many colleagues and volunteers significantly contributed to the preparation of the conference for their enormous help and enthusiastic contribution.

We hope that you will find the rich program both interesting and informative. We wish all participants enjoy themselves in Hohot.
